

3rd Pancreatic Cancer Forum

Milano, November 6th-7th, 2015

PRELIMINARY AGENDA

Friday, November 6th

- 09.00-09.15 Welcome and introduction
- SESSION 1: BASIC RESEARCH IN PANCREATIC CANCER: SHIFTING EPIDEMIOLOGY AND BASIC SCIENCE ADVANCES**
Chairmen: N. Funel, M. Löhr, P. Maissonneuve
- 09.05-09.20 Changing epidemiology of pancreatic cancer: Why is it still increasing?
D. Bartsch
- 09.20-09.35 Why is pancreatic cancer so difficult to detect? The challenge of early detection
M. Löhr
- 09.35-09.45 **PANEL DISCUSSION**
Epidemiology and the difficulties with early detection in pancreatic cancer and the relevance to clinical practice
P.G. Arcidiacono, N. Funel, M. Löhr, P. Maissonneuve
- 09.45-10.30 **Key advances in basic science: The last 12 months**
- New 3D-pancreatic cell culture system as a tool to evaluate human PDAC
V. Corbo
 - Carcinoma-associated fibroblast-derived CXCL12 in pancreatic tumour cell immune evasion (promise of plerixafor)
F.X. Real
 - Defective extrusion, due to reduced SP12 in pancreatic cancer may be involved in tumourigenesis, invasion and metastasis; potential role of FAK inhibitors
J. Rosenblatt
- 10.30-10.45 **KEYNOTE LECTURE**
Why is pancreatic cancer so difficult to treat? The basic research challenges
M. Hidalgo

3rd Pancreatic Cancer Forum

Milano, November 6th-7th, 2015

10.45-11.00

PANEL DISCUSSION

V. Corbo, M. Hidalgo, F.X. Real, J. Rosenblatt

(including audience keypad voting on the pancreatic research challenges)

- The key challenges in basic science
- Translating the basic science into reality
- The roadmap for overcoming these in the next 5 years

11.00-11.15

Coffee break

SESSION 2:

BASIC RESEARCH IN PANCREATIC CANCER: IMMUNE ESCAPE MECHANISMS AND THE PROMISE OF IMMUNOTHERAPY

Chairmen: D.T. Fearon, M.P. Protti, A. Scarpa

11.15-11.30

How does pancreatic cancer avoid the immune system?

V. Bronte

11.30-12.00

CUTTING THE HEDGE

Can we make pancreatic cancer immunogenic?

D.T. Fearon, E.M. Jaffee

12.00-12.15

PANEL DISCUSSION

The immunogenic potential of pancreatic cancer and the relevance to clinical practice

V. Bronte, D.T. Fearon, E.M. Jaffee, M.P. Protti, A. Scarpa

12.15-13.15

WORKSHOP A

Group 1: Strategic immunotherapy/vaccine/checkpoint inhibitor workshop

Coordinators: V. Bronte, D.T. Fearon

Group 2: Early detection of pancreatic cancer

Coordinators: P.G. Arcidiacono, M. Löhr

13.15-14.15

Lunch

SESSION 3:

TRANSLATIONAL RESEARCH: GENOMICS AND THE STROMA

Chairmen: A. Biankin, F. Ciardiello, R. Ramanathan

14.15-14.30

Genomics update: can we translate the promise into clinical trials or daily practice soon?

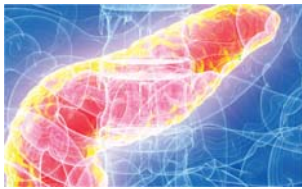

A. Biankin

3rd Pancreatic Cancer Forum

Milano, November 6th-7th, 2015

- 14.30-15.00 **CUTTING THE HEDGE**
Stroma: Friend or foe?
R. Kalluri, K.P. Olive
- 15.00-15.15 **PANEL DISCUSSION**
Genomics and the stroma and the relevance to clinical practice
A. Biankin, F. Ciardiello, R. Kalluri, K.P. Olive, R. Ramanathan
- 15.15-15.30 Coffee break
- SESSION 4:** **TRANSLATIONAL RESEARCH: RESISTANCE AND STEM CELLS**
Chairmen: N. Silvestris, C. Swanton, G. Tortora
- 15.30-15.45 Mechanisms of treatment resistance in PDAC: Can we overcome them?
C. Swanton
- 15.45-16.00 The role of pancreatic stem cells and how to target them effectively
C. Heeschen
- 16.00-16.15 **PANEL DISCUSSION**
Key on mechanisms of treatment resistance and stem cells in PDAC and the relevance to clinical practice
N C. Heeschen, N. Silvestris, C. Swanton, G. Tortora
- 16.15-17.15 **WORKSHOP B**
Group 1: utilizing genomics, epigenetic and molecular profiling in pancreatic cancer
Coordinators: A. Biankin, F. Ciardiello
- Group 2:** Biomarkers: issues and controversies
Coordinators: J. Neoptolemos, G. Tortora
- 17.15-18.00 Chairs' summary and workshop feedback

3rd Pancreatic Cancer Forum

Milano, November 6th-7th, 2015

Saturday, November 7th

08.30-08.35 Introduction of 2nd Day Meeting

SESSION 5: CLINICAL MANAGEMENT OF PANCREATIC CANCER: EARLY-STAGE AND LOCALLY ADVANCED DISEASE

Chairmen: M.D. Choung, M. Falconi, R. Ramanathan, G. Zamboni

08.35-08.50 Neoadjuvant therapy update, issues and future direction
V. Heinemann

CASE STUDY DISCUSSION

Optimal therapy in resectable disease

M.D. Choung, M. Milella, J. Neoptolemos

Introduction by M. Falconi

CASE STUDY DISCUSSION

Downsizing in borderline resectable disease

G. Balzano, A. Morganti, J-L. van Laethem

Introduced by R. Ramanathan

10.10-10.25 Update on pathological controversies and advances after resection
C. Doglioni

PANEL DISCUSSION

Pathological controversies and advances

G. Zamboni

10.30-10.45 Coffee break

CASE STUDY DISCUSSION

Unresectable disease: what are the options when surgery is no longer an option?

M.D. Choung, M. Ducreux

Introduced by A. Morganti

SESSION 6: CLINICAL MANAGEMENT OF PANCREATIC CANCER: METASTATIC DISEASE

Chairmen: G. Aprile, S. Cascinu, A. Zerbi

11.15-11.35 Optimal management of minimal metastatic disease: Role of local treatment
M. Büchler

3rd Pancreatic Cancer Forum

Milano, November 6th-7th, 2015

- 11.35-11.50 Metastatic pancreatic cancer update
P. Philip
- 11.50-12.05 **PANEL DISCUSSION**
Metastatic disease
G. Aprile, M. Büchler, S. Cascinu, P. Philip, A. Zerbi
- 12.05-12.25 **CASE STUDY DISCUSSION**
Optimal treatment in metastatic setting with keypad voting
E. van Cutsem
- 12.25-13.25 Lunch
- 13.25-13.40 **CASE STUDY DISCUSSION**
Optimal treatment in metastatic setting with keypad voting
T. Seufferlein
- 13.40-13.55 Advancing the management of cancer cachexia: how do we improve patient outcomes?
K. Fearon
- 13.55-14.05 **PANEL DISCUSSION**
G. Aprile, S. Cascinu, A. Zerbi
- 14.05-15.05 **WORKSHOP C**
Group 1: Optimisation of supportive care
Coordinators: G. Aprile, K. Fearon
- Group 2:** Innovation in therapy and management of patients with PDAC
Coordinators: M. Ducreux, H. Oettle
- 15.05-15.20 Coffee break
- 15.20-15.35 Keynote - Precision, personalisation and the future of pancreatic cancer: where do we go from here?
Development of a comprehensive clinical and research program in PC
M. Moore
- 15.30-16.00 Chairs' summary and workshop feedback
- 16.30 *Departures*
-
