

The Golden Helix symposium on Circulating Nucleic Acids  
15-16th June, 2015  
Pisa

The Young Biomarkers Day

10:00 – 10.30	Welcome	
	Rector, University of Pisa	<i>M. Augello</i>
	General Director, University Hospital	<i>C. Tomassini</i>
	Director of Department of Clinical and Experimental Medicine	<i>M. Petrini</i>
	Director of Department of Laboratory Medicine	<i>G. Bevilacqua</i>

10:30-11:00	PGx data: clinical application in oncology	<i>R. van Schaik</i>
11:00-11:30	Pharmacokinetic modeling incorporating PGx data: clinical application in hematology	<i>A. Di Paolo</i>

11:30-12:00	<i>Coffee break</i>	
-------------	---------------------	--

12:00-12:30		<i>Young oncologist</i>
12:30-13:00		<i>Young pharmacologist</i>

13:15-14:30	<i>Lunch</i>	
-------------	--------------	--

<i>Chairmen: M. Del Re &amp; F. Massari</i>		
14:30-15:00	Clinical trials for the study of biomarkers: from classical to innovative designs	<i>M. Di Maio</i>
15:00-15:30	Clinical trial design: how to validate circulating nucleic acids?	<i>E. Bria</i>
15:30-16:00	Biomarkers and statistics	<i>L. Boni</i>

16:00-16:30	<i>Coffee break</i>	
-------------	---------------------	--

<i>Chairmen: C. Cremolini &amp; TBC</i>		
17:00-17:30	PGx clinical case I	<i>TBC</i>
17:30-18:00	PGx clinical case II	<i>TBC</i>

## The Golden Helix symposium on Circulating Nucleic Acids

9:00 - 9.30	Welcome	
	Rector, University of Pisa	<i>M. Augello</i>
	General Director, University Hospital	<i>C. Tomassini</i>
	Director of Department of Clinical and Experimental Medicine	<i>M. Petrini</i>
	Director of Department of Laboratory Medicine	<i>G. Bevilacqua</i>

<i>Chairmen: F. Citterio &amp; U. Boggi</i>		
9:30-10:00	Methodological issues in CNAs analysis	<i>TBC (Biotech)</i>
10:00-10:30	How and when to monitor CNAs in transplantation	<i>R. van Schaik (The Netherlands)</i>
10:30-11:00	Clinical applications of CNAs in renal transplant	<i>D. A. Hesselink (The Netherlands)</i>

11:00-11:30	<i>Coffee break</i>	
-------------	---------------------	--

<i>Chairmen: C. Pinto &amp; S. Gori</i>		
11:30-12:00	How and when to monitor CNAs in oncology	<i>R. Danesi (Italy)</i>
12:00-12:30	Pros and cons of tissue vs CNAs	<i>A. Scarpa (Italy)</i>
12:30-13:00	Research vs clinical application: the costs of CNAs diagnostics	<i>G. Patrinos (Greece)</i>

13:00-14:30	<i>Lunch</i>	
-------------	--------------	--

## Targeted application of Circulating Nucleic Acids research

<i>Chairmen:</i>		
14:30-15:00	Clinical applications of CNAs in NSCLC	<i>R. Rosell (Spain)</i>
15:00-15:30	Clinical applications of CNAs in colorectal cancer	<i>F. Loupakis (Italy)</i>
15:30-16:00	Clinical applications of CNAs in breast cancer	<i>N. Turner (UK)</i>

16:00-16:30	<i>Break</i>	
-------------	--------------	--

<i>Chairmen:</i>		
16:30-17:00	Clinical applications of CNAs in prostate cancer	<i>G. Jenster (The Netherlands)</i>
17:00-17:30	Clinical applications of CNAs in haematologic malignancies	<i>TBC</i>
17:30-18:00	Lecture: Are we ready for prime time use?	<i>C. Swanton (UK)</i>
