Dear Friends and Colleagues,

It is a great pleasure to welcome you in Florence to the 2018 edition of the 'Hot Topics' in Melanoma and Non-Melanoma Skin Cancer (NMSC). From the previous edition in 2015, great news have followed in the rapidly evolving field of cutaneous oncology.

New, effective drugs have been increasingly used in practice, and in the mean time the close integration among prevention, early diagnosis, surgical and medical therapies has become even more important in the fight against skin cancer.

During the Congress you will have the opportunity to hear state-of-the-art presentations given by leading experts in the field of skin cancer. Key opinion leaders in Melanoma and NMSC are invited to give an overview of the most recent advances in the pathogenesis, diagnosis, and treatment, and of the latest clinical trial results and new drugs development.

We are confident you all will appreciate the meeting, and look forward to welcoming you in Florence!

Lorenzo Borgognoni

SCIENTIFIC PROGRAM

Thursday - April 12th, 2018

2.30 pm - 3.30 pm Registration

3.30 pm - 5.30 pm **Symposium I: POSTER PRESENTATIONS**

Chairs: G. Gerlini (Florence, Italy), S. Sestini (Florence, Italy)

- *S. Mancini (Cesena, Italy):* Incidence and mortality of melanoma in Europe - the ECIS tool
- *S. Mancini (Cesena, Italy):* Malignant melanoma incidence trends: preliminary results of age-period-cohort analysis in Romagna, region of Italy
- *S. Mancini (Cesena, Italy):* Melanoma survival according to Cox model versus classification and regression trees analysis: a registry-based study
- *G. Bagnoni (Livorno, Italy):* Epidemiology of melanoma in Livorno between 2006 and 2016 and evaluation of risk factors for the positivity of lymph nodes in pT1b-pT3 groups
- *A. Ravaoli (Ravenna, Italy):* What has changed for thin melanoma moving from TNM 7th to TNM 8th?
- *E. Antoniazzi (Bologna, Italy)* Animal-type Melanoma. A case report
- *H. Kocic (Nis, Serbia):* Multiple blue-black lesions on the face of the 58-year old patient.
- *C. Mazzatenta (Lucca, Italy):* Imiquimod treatment of lentigo maligna melanoma
- *C. Ottanelli (Florence, Italy):* Predictive prognostic value of lactate dehydrogenase (LDH) variations during treatment in advanced (stage IIIc-IV) melanoma: preliminary results of a monocentric observational study
- *S. Gunnella (Florence, Italy):* Target Therapy with Dabrafenib e Trametinib "beyond progression" associated with electrochemotherapy (ECT) and Zoledronic Acid in a patient with BRAF mutated metastatic melanoma.
- *R. Colucci (Florence, Italy):* Bacterial and fungal gut microbiota composition in melanoma patients: preliminary results
- *S. Peppicelli (Florence, Italy):* Aspects of Melanoma cells adapted to a chronic acidosis relevant for therapy
- *A. Biagioni (Florence, Italy):* uPAR gene knockout mediated by CRISPR/Cas9 in Melanoma: a pivotal role for a "sociable" receptor
- *J. Ruzzolini (Florence, Italy):* Oleuropein potentiates the cytotoxic activity of Dacarbazine against melanoma cells
- *F. Margheri (Florence, Italy):* uPA/uPAR system activation drives a glycolytic phenotype in melanoma cells
- *E. Andreucci (Florence, Italy):* Carbonic anhydrase IX targeting in melanoma treatment: the role of acidic tumor microenvironment.
- *I. Lastrucci (Florence, Italy):* Treatment and outcome of basal cell carcinoma in the setting of dermato-oncology clinic
- *A. M. D'Erme (Livorno, Italy):* Use of vismodegib in advanced basal cell carcinoma: the experience of Livorno

- *A. Lamberti (Siena, Italy):* Vismodegib: a useful treatment for Gorlin-Goltz Syndrome
- *I. Lastrucci (Florence, Italy):* Dermatofibrosarcoma Protuberans secondary to a tattoo? Case report and review of literature.
- *A. M. D'Erme (Livorno, Italy):* A clinical, dermoscopic and histological challenge: the pigmented mammary Paget's disease
- *P. Vitiello (Naples, Italy):* Diffuse large B cell lymphoma "non-germinal centre type". A case report
- *S. Gunnella (Florence, Italy):* Primary cutaneous CD8+ CD30+ lymphoproliferative disorder in patient with CD4 acquired immunodeficiency
- *I. Lastrucci (Florence, Italy):* Indolent CD8-positive lymphoid proliferation of acral sites

5.30 pm - 7.00 pm

**Symposium II «UGO BOTTONI»
SELECTED ORAL COMMUNICATIONS**

Chair: S. Calvieri (Rome, Italy)

- *E. N. Gangemi (Torino, Italy):* Complex reconstruction in dermatosurgery: our experience
- *R. Villani (Bologna, Italy):* Reconstruction of upper palpebral fissure
- *G. Damiani (Milan, Italy):* Squamous cell carcinoma of the scalp and its treatment. Role of radiation therapy
- *D. Russo (Naples, Italy):* Role of carbonic anidrase IX in the neoplastic progression of basal cell carcinoma
- *A. Pileri (Bologna, Italy):* Primary cutaneous Rosai-Dorfmann Disease: diagnostic and therapeutic aspects
- *V. Grandi (London, United Kingdom):* T-cell receptor CDR3 region deep sequencing with padlock probes as a diagnostic tool in T-cell malignancies
- *F. Bianchini (Florence, Italy):* Selective targeting of melanoma cells and efficient cellular internalization using RGD-functionalized gold
- *M. Colombino (Sassari, Italy):* Sinonasal mucosal melanomas from the Southern Italian population are mutated in the BRAF gene
- *A. Laurenzana (Florence, Italy):* Therapeutic strategies to overcome Vemurafenib acquired resistance in melanoma cells

7.00 pm - 7.30 pm

OPENING PLENARY LECTURE

Chairs: L. Borgognoni (Florence, Italy), N. Pimpinelli (Florence, Italy)

Causative factors and chance events in the pathogenesis of cancer

Lucio Luzzatto (Dar-es-Salaam, Tanzania)

7.30 pm

Welcome reception

Friday - April 13th, 2018

8.00 am - 8.30 am Opening secretariat

8.30 am - 8.45 am Welcome address

8.45 am - 9.15 am **Keynote Lecture**

Chair: N. Pimpinelli (Florence, Italy)

Pathogenesis of NMSC and influence on treatment

Chairs: P.G. Calzavara-Pinton (Brescia, Italy), F. Ayala (Naples, Italy)

9.15 am - 10.45 am **Session 1**

Non-Melanoma Skin Cancer (NMSC): pathogenesis, diagnosis and topical treatment

Chairs: P.G. Calzavara-Pinton (Brescia, Italy), F. Ayala (Naples, Italy)

1. Risk of post-transplantation NMSC: an update
L. Naldi (Bergamo and Vicenza, Italy)
2. The role of nicotinamide in kidney transplant recipients
A. Parodi (Genoa, Italy)
3. Topical treatment of NMSC: the evolving scenario
L. Zichichi (Trapani, Italy)
4. PhotoDynamic Therapy of NMSC: new approaches and indications
S. Piaserico (Padua, Italy)
5. Treatment algorithm in NMSC
G. Micali (Catania, Italy)
6. Discussion

10.45 am - 11.00 am Coffee break

11.00 am - 11.30 am **Keynote Lecture**

Chair: L. Borgognoni (Florence, Italy)

Checkpoint blockade in NMSC

D. Schadendorf (Essen, Germany)

11.30 am - 1.00 pm **Session 2**

NMSC: surgical and systemic treatment

Chairs: M. Fimiani (Siena, Italy), R. Gelli (Florence, Italy)

1. Defining high risk NMSC
M. Simonacci (Macerata, Italy)
2. Reconstructive surgery of NMSC
F. Bassetto (Padua, Italy)
3. Perforator flaps for skin cancer reconstruction of the head
B. Brunetti (Rome, Italy), P. Persichetti (Rome, Italy)
4. Merkel cell carcinoma: new insights in surgical and systemic treatment
A. Maurichi (Milan, Italy), S. Pusceddu (Milan, Italy)
5. Systemic treatment of Kaposi's sarcoma: when and how
L. Brambilla (Milan, Italy)
6. Discussion

1.00 pm - 2.00 pm Lunch

2.00 pm - 2.30 pm

Keynote Lecture

Chair: S. Pileri (Milan, Italy)

Diagnosis of cutaneous lymphoma: tools and rules

L. Cerroni (Graz, Austria)

2.30 pm - 4.00 pm

Session 3

Cutaneous Lymphoma: update in diagnosis and pathogenesis

Chairs: G. Ferrara (Benevento and Macerata, Italy), L. Leoncini (Siena, Italy)

1. Cutaneous T-cell Lymphoma
M. Santucci (Florence, Italy)
2. Cutaneous B-Cell Lymphoma
M. Paulli (Pavia, Italy)
3. Rare entities of cutaneous lymphoma
E. Berti (Milan, Italy)

Keynote Lecture

Chair: E. Berti (Milan, Italy)

Pathogenesis of cutaneous lymphoma: focus on the most clinically relevant issues

M.H. Vermeer (Leiden, The Netherlands)

4. Cellular microenvironment and progression of Mycosis Fungoides
A. Pileri (Bologna and Florence, Italy)

4.00 pm - 4.15 pm

Coffee Break

4.15 pm - 4.45 pm

Keynote Lecture

Chair: N. Pimpinelli (Florence, Italy)

Treatment of cutaneous lymphoma: a stage-based algorithm

Y.H. Kim (Stanford, USA)

4.45 pm - 6.00 pm

Session 4

Cutaneous Lymphoma: current treatment and evolving trends

Chairs: S. Rupoli (Ancona, Italy), P.L. Zinzani (Bologna, Italy)

1. Skin-directed treatment in cutaneous T-cell lymphoma
M. Bagot (Paris, France)
2. Phototherapy of early Mycosis Fungoides: the position of the Cutaneous Lymphoma Task Force of the Italian Lymphoma Foundation
V. Grandi (Florence, Italy)
3. Total skin electron beam radiotherapy of cutaneous T-cell lymphoma: improving efficacy while reducing toxicity
G. Simontacchi (Florence, Italy)
4. Patterns of care in advanced cutaneous T-cell lymphoma
P. Quaglino (Turin, Italy)
5. Discussion

Saturday - April 14th, 2018

8.00 am - 8.30 am Opening secretariat

8.30 am - 9.00 am Keynote Lecture

Chair: E. Crocetti (Florence, Italy)

Worldwide Cancer Registry data on Melanoma and NMSC: incidence, mortality and trends

F. Bray (Lyon, France)

9.00 am - 10.30 am Session 5

Epidemiology, Screening and Diagnosis of Cutaneous Melanoma

Chairs: A. Offidani (Ancona, Italy), C. D'Aniello (Siena, Italy)

1. Skin cancer screening and secondary prevention campaigns
E. Crocetti (Florence, Italy)
2. Dermoscopy, confocal reflectance microscopy and sequential follow-up of pigmented lesions
I. Stanganelli (Parma and Meldola, Italy)
3. Dermoscopic diagnosis of amelanotic/hypomelanotic melanoma
M.A. Pizzichetta (Aviano, Italy)
4. Genetic markers of prognostic outcome
G. Palmieri (Sassari, Italy)
5. Fishing for answers in precision melanoma medicine
M. Fazio (Boston, USA)
6. Discussion

10.30 am - 11.00 am Coffee break

11.00 am - 11.30 am Keynote Lecture

Chair: L. Borgognoni (Florence, Italy)

Surgery, sentinel node biopsy and lymphadenectomy in melanoma: evolution of a new treatment paradigm

V.K. Sondak (Tampa, USA)

11.30 am - 1.00 pm Session 6

Surgery of Melanoma: update of an evergreen

Chairs: C. Caracò (Naples, Italy), A. Cordova (Palermo, Italy)

1. The importance of quality control program in melanoma treatment
C.R. Rossi (Padua, Italy)
2. Sentinel biopsy in thick melanoma: is it worthwhile?
S. Sestini (Florence, Italy)
3. The role of surgery in advanced melanoma: when alone, when combined, when useless ?
N. Mozzillo (Naples, Italy)
4. Melanocytic tumors of uncertain biologic potential: what are they, and how to manage ?
A. Maurichi (Milan, Italy)
5. The AJCC melanoma staging system 8th edition: what changed in clinical practice ?
A. Testori (Milan, Italy)
6. Discussion

1.00 pm - 2.00 pm Lunch

2.00 pm - 2.30 pm **Keynote Lecture**

Chair: S. Moretti (Florence, Italy)

B7-H3, an attractive target of antibody based immunotherapy of solid tumors

S. Ferrone (Boston, USA)

2.30 pm - 4.45 pm **Session 7**

Medical treatment of advanced melanoma: a rapidly changing scenario

Chairs: E. Mini (Florence, Italy), S. Pino (Florence, Italy),

R. Marconcini (Pisa, Italy)

1. Molecular testing in melanoma: an update
D. Massi (Florence, Italy)
2. Update in adjuvant melanoma treatments and trials
P. Queirolo (Genoa, Italy)
3. Adjuvant melanoma treatment with beta-blockers: facts and future directions
V. De Giorgi (Florence, Italy)
4. Target therapy of melanoma: where are we today ?
M. Del Vecchio (Milan, Italy)
5. Immunotherapy: from a concept to a well-established reality
A.M. Di Giacomo, M. Maio (Siena, Italy)
6. Immunomodulating properties of target therapies
M. Mandalà (Bergamo, Italy)
7. Stable complete response after target or immune therapy in stage IV: stop or continue treatment?
V. Chiarion-Sileni (Padua, Italy)
8. Electrochemotherapy: indications, results and lessons from biology
G. Gerlini (Florence, Italy)
9. Discussion

4.45 pm

Closing remarks, free Communications & Poster Awards

General information

Meeting venue

The venue for the Meeting will be
CONVITTO DELLA CALZA, Piazza della calza nr. 6 - Florence, Italy
Room PONTE VECCHIO

Secretariat during the Meeting

The Secretariat will be open at the following times:
Thursday, April 12th, from 1.30 p.m. to 7.30 p.m.
Friday, April 13th, from 7.30 a.m. to 6.00 p.m.
Saturday, April 14th from 7.30 a.m. to 5.00 p.m.

Official language

The official language of the Meeting will be English.
Simultaneous translation will not be provided.

Italian ECM Accreditation

The Event entitled HOT TOPICS IN MELANOMA & NON-MELANOMA SKIN CANCER 2018 has been accredited by the Italian Ministry of Health for 13,3 ECM credits (Event number: 215872; Provider number: 322).

The specialities and disciplines (only for Italian participants) able to apply for Italian ECM credits are:

- Biologo;
- Infermiere;
- Medico Chirurgo, nelle Discipline di: Dermatologia e Venereologia; Ematologia; Oncologia; Genetica Medica; Radioterapia; Chirurgia Generale; Chirurgia Maxillo-Facciale; Chirurgia Plastica e Ricostruttiva; Otorino-laringoiatria; Anatomia Patologica, Medicina Nucleare, Radiodiagnostica; Cure Palliative; Epidemiologia.

The ECM certificate will be available for Italian participants after completing the evaluation test as well as 90% of attendance of the entire congress.
Italian participants will be asked to record attendance each day.

Registration

The Meeting is free to attend. Please confirm the participation to the Organizing Secretariat:

Via J. Melani, 19/23 - 59016 Poggio a Caiano (PO)
Tel. 055 8797796 - 8777875 Fax 055 8797843 info@nicocongressi.it
Sede Legale ed Operativa: Via Aurora, 39 - 00187 Roma
Tel. 06 48906436 - 42012177 Fax 06 4821566
meeting@nicocongressi.it - www.nicocongressi.it

Technical facilities

Facilities will be available for computer presentations and overhead projections. A business center with PC (Powerpoint for Windows) will be available for check and preview of presentations. It is essential that speakers take their presentation to the business center at least one hour before the session starts.

The center will be open at the following times:

Thursday, April 12th, from 1.30 p.m. to 7.30 p.m.

Friday, April 13th, from 7.30 a.m. to 6.00 p.m.

Saturday, April 14th from 7.30 a.m. to 5.00 p.m.

Lunches and coffee breaks

Lunches and coffee breaks will be served in the Meeting area.
