## WELCOME FROM PRESIDENT

Dear Colleague,

it's my great pleasure to invite you to participate in the proceedings of **2<sup>nd</sup> Italian Conference on Thoracic Oncology (CIOT)** that, in its biennial recurrence, will take place in Rome from June 24<sup>th</sup> to June 26<sup>th</sup> 2010 and that I've the responsibility to chair.

I would call your attention to at least three interesting aspects of Rome's Conference that make the appointment very peculiar and that I identify in its International form, in the location and in its goals.

### International form

The 60% of Faculty is composed of foreign speakers, everybody playing an active part in clinical research in Thoracic Oncology and KOL in their respective countries. We expect a significant foreign delegation. The Conference is glad at ESMO label and for this reason the official language of the Conference will be English.

### Location

The Conference will take place in the Auditorium, "Parco della Musica", designed by the renowned Italian architect, Renzo Piano, that develops on an area of 55.000 sm among "Villa Glori", "Parioli hill" and the "Olimpionic Village". Its design that is consisting of three big "beetles" of different sizes, with a radial arrangement around a big open air amphitheatre, is the permanent seat of symphonic season and for the chamber music of National Academy of Saint Cecilia and of busy round of multidisciplinary planning

of "Music Foundation for Rome". The beauty and the functionality of the building together with its key position in downtown are an undoubted value added for the Conference.

### Goals

Setted immediately after ASCO, the Conference will give an update on the data coming from Clinical Research in Thoracic Oncology directly from the voice of its Authors more representative in an appointment that by alternation with the World Congress of IASLC, we would like to be lasting inside of the international congressional track.

For these reasons I'm trusting that you should appreciate the effort of the organizing secretariat to realize this scientific meeting doing credit to us with your attendance in Rome.

Arrivederci

President of 2<sup>nd</sup> CIOT

**Filippo de Marinis**
