4th Announcement

Geriatric Oncology: Cancer in Senior Adults

11th Meeting of the International Society of Geriatric Oncology
November 3–5, 2011
Paris, France

Meeting Chair:

Etienne Brain, St. Cloud, France

Scientific Chair:

Stuart Lichtman, New York, USA

SIOG (International Society of Geriatric Oncology)

President: **Riccardo Audisio**, Liverpool, UK

Past President: **Martine Extermann**, Tampa, USA

Executive Director: **Matti Aapro**, Genolier, Switzerland

This event has been approved for 12 European CME credits by ACOE

Friday, November 4, 2011

08:30-08:45	Welcome and opening	Etienne Brain & Stuart Lichtman
08:45-09:15	Meet the Professor: Dosing & toxicity management (cased based discussion)	Lodovico Balducci Catherine Terret
09:15-10:05	Session I: Updates	Chair: Matti Aapro
09:15-09:25	Surgery	Riccardo Audisio
09:25-09:35	Radiation oncology	Ian Kunkler
09:35-09:45	Medical oncology	Arti Hurria
09:45-09:55	Geriatrics	Olivier Saint-Jean
09:55-10:05	Q&A / discussion	All
10:05-10:45	Session II: Geriatric oncology in the real world or in daily practice (Round table)	Chair: Catherine Terret
10:05-10:15	Cancer work-up for the geriatrician	Catherine Terret
10:15-10:25	How much geriatrics can an oncologist do?	Michele Basche
10:25-10:35	Geriatric assessment in private and public setting: how does it work?	Frederique Retornaz
10:35-10:45	Q&A / discussion	All
10:45-11:15	Coffee break	
11:15-12:00	Session III: Tough to treat tumors in elderly	Chair: Martine Extermann
11:15-11:25	Sarcomas	Michael Leahy
11:25-11:35	CNS	Jean-Yves Delattre
11:35-11:45	Pancreatic cancer: how far can we go?	Jean-Luc Raoul
11:45-11:55	Hepato-biliary surgery: who benefits?	Joost van der Sijp
11:55-12:00	Q&A / discussion	All
12:00-12:30	Lunch & poster viewing	
12:30-14:00	Satellite symposium	Hospira
14:00-14:50	Parallel session IV A: GU cancer	Chair: Lodovico Balducci
14:00-14:15	Robotic oncologic surgery in the elderly	Vincent Laudone
14:15-14:30	Targeted therapies in renal cell carcinoma	Stéphane Oudard
14:30-14:45	Prostate in the elderly: what role for new agents?	Supriya Mohile
14:45-14:50	Q&A / discussion	All
14:00-14:50	Parallel session IV B: Biology of ageing and cancer	Chair: Hans Wildiers
14:00-14:15	Immunosenescence and ageing	Tamas Fulop
14:15-14:30	Ageing, NK cells and response to cancer vaccines	Claudia Gravekamp
14:30-14:45	Telomeres and ageing	Claire Léger-Falandry
14:45-14:50	Q&A / discussion	All
14:50-15:50	Parallel session V A: Lung & head and neck tumors	Chair: Arash Naeim
14:50-15:00	Assessing an elderly with dyspnea	Hervé Le Caer
15:00-15:10	Appropriate surgery for early lung cancer	Michael Jaklitsch
15:10-15:20	Adjuvant chemotherapy & targeted therapies: what role in the elderly with lung cancer?	Aminah Jatoi
15:20-15:30	Curative XRT for early stage lung cancer	Suresh Senan
15:30-15:40	Which older HN patients are legitimate for EGFR inhibitors and how?	Joel Guigay
15:40-15:50	Q&A / discussion	All
14:50-15:50	Parallel session V B: Haematological malignancies	Chair: Pierre Soubeyran
14:50-15:00	Is FCR the standard therapy for older cancer patients with CLL?	Véronique Leblond
15:00-15:10	MDS/MPN, prognosis and treatment	Reinhard Stauder
15:10-15:20	Low grade lymphomas: where do the new therapies fit?	Vicki Morrison
15:20-15:30	When should we use intensive chemotherapy versus hypomethylating agents in older AML patients?	Ulrich Wedding
15:30-15:40	Myeloma	Thierry Facon
15:40-15:50	Q&A / discussion	All
15:50-16:15	Tea break	
16:15-17:00	Proffered paper session 1	Chair: Etienne Brain & Riccardo Audisio
17:00-18:00	Satellite symposium	
18:15-18:45	SIOG general assembly	

Saturday, November 5, 2011

07:30-08:00	Meet the Professor: Career & publications in geriatric oncology	Hans Wildiers Harvey Cohen
08:00-09:00	Breakfast session: Educational/funding opportunities in geriatric oncology and National organizations	Chair: Martine Extermann & Hyman Muss
08:00-08:05	Introduction	Martine Extermann
08:05-08:15	US resources, SIOG/ASCO	Arash Naeim & Hyman Muss
08:15-08:25	European resources and EORTC	Hans Wildiers
08:25-08:35	Global resources	Chris Steer
08:35-08:45	SoFOG and the French connection	Hervé Curé
08:45-08:55	Recommendations (NCCN, SIOG, SoFOG, etc)	Etienne Brain
08:55-09:00	Q&A / discussion	All
09:00-10:00	Session VI : Breast cancer	Chair: Etienne Brain
09:00-09:10	Do elderly BC patients want to be screened?	Daniel Serin
09:10-09:20	Can new prognostic tools help us to design adjuvant treatment in elderly?	Etienne Brain
09:20-09:30	Optimizing treatment of triple negative breast cancer in the older woman	Hans Wildiers
09:30-09:40	What is the role of targeted therapies in metastatic disease?	Hyman Muss
09:40-09:50	Q&A / discussion	All
09:50-10:30	Coffee break & poster viewing	
10:30-11:00	Session VII – Invited lecture: Systems approaches: A Copernican revolution in the cancer-centric universe	Stefano Bonassi
11:00-12:45	Session VIII: Geriatric assessment, frailty and QoL	Chair: Harvey Cohen & Gilles Freyer
11:00-11:10	Definitions/Biology of frailty	Harvey Cohen
11:10-11:20	Surgical assessment	Barbara van Leeuwen
11:20-11:30	GFI	Hans Nortier
11:30-11:40	G8	Pierre Soubeyran
11:40-11:45	Q&A / discussion	All
11:45-11:55	CARG	Arti Hurria
11:55-12:05	The CRASH score	Martine Extermann
12:05-12:15	OLD program	Elisabeth Carola
12:15-12:20	Q&A / discussion	All
12:20-12:30	QOL after treatment: can older patients return to active life after treatment?	Maryska Janssen
12:30-12:40	Summary: How do we use these data	Lodovico Balducci
12:45-13:15	Lunch & poster viewing	
13:15-14:15	Satellite symposium	Roche
14:15-15:00	Parallel session IX A: Digestive cancers	Chair: Emmanuel Mitry
14:15-14:25	Gastric cancer: how strong can curative intent treatment be in elderly	Caio Rocha Lima
14:25-14:35	Liver cancer and liver metastases: new techniques for elderly	Nicola de Liguori
14:35-14:45	Neuroendocrine tumors in the elderly	Emmanuel Mitry
14:45-14:55	Systemic treatment of colorectal cancer in the elderly: an update	Gunnar Folprecht
14:55-15:00	Q&A / discussion	All
14:15-15:00	Parallel session IX B: Ovarian cancer	Chair: Stuart Lichtman
14:15-14:25	Timing and extent of surgery in the elderly	Vivian von Gruenigen
14:25-14:35	Chemo + targeted agents? GOG series	Stuart Lichtman
14:35-14:45	Biology of ovarian cancer and age	Jonathan Lancaster
14:45-14:55	Relapsed ovarian cancer	Hervé Curé
14:55-15:00	Q&A / discussion	All
15:00-15:45	Proffered paper session 2	Chair: Stuart Lichtman & Martine Extermann
15:45-16:45	Closures Calabresi Award Lecture / BJ Kennedy Poster Award Presidential Talk / Welcome to SIOG 2012 / Conclusions	Riccardo Audisio & Martine Extermann Riccardo Audisio

11th Meeting of the International Society of Geriatric Oncology

Who Should Attend

This educational program is intended for basic scientists, surgeons, geriatricians, medical oncologists, radiation oncologists, psychologists, sociologists, nurses, nurse practitioners and other healthcare professionals in active clinical practice interested in and/or involved in the management of elderly cancer patients. No specialized knowledge or skills other than a general familiarity with cancer and its treatment is required for successful participation in the program.

Meeting Topics

- Bone health
- Breast cancer
- Economics
- Ethics
- Geriatric assessment
- GI cancer
- Leukemia
- Lymphoma
- Lung cancer
- Organisation of geriatric oncology
- Pain
- Palliation
- Targeted therapy: new drugs
- Urology cancer

Congress Venue

Pullman Rive Gauche
8-12, Rue Louis Armand
75015 PARIS

Program

Check agenda online at www.siog.org

CME Accreditation

Approval of the scientific program for continuing medical education (CME) credits will be applied for with the European Society for Medical Oncology (ESMO).

Official Language

Official language of the meeting is English

SIOG wishes to express their appreciation to the following Sponsors:

Gold Sponsor:

Silver Sponsors:

Bronze Sponsors:

Supporters:
