

XXXV° CONGRESSO AISP

13-15 ottobre 2011

Giovedì 13 ottobre

15.30 SIMPOSIO: QUALITA' DELLA VITA NELLE PANCREOPATIE

Moderatori: A. MALESCI, M. CANTORE

- **La genesi e la misura del dolore nell' infiammazione**
PL DI SEBASTIANO
- **Tra speranza prognostica e limite funzionale: La QdV nel resecato**
M. DEL CHIARO
- **Le aspettative del malato oncologico**
R. PEZZILLI
- **Fragilità del corpo e fragilità della psiche**
M. KATZ

17.00 STATO DELL' ARTE TRIALS AISP

Moderatori: GP BALZANO, C. BASSI

- **Tachosil trial** - M. MONTORSI
- **Neoadjuvant trial** - M. RENI
- **IPMN trial** - G. CAPURSO
- **Aggiornamento Linee guida Pancreatite Cronica** - L. FRULLONI
- **Proposta per uno studio osservazionale multicentrico sul ruolo della EUS nella diagnosi precoce del cancro pancreatico nei pazienti a rischio aumentato" Carcinoma pancreatico e familiarità** - GP ARCIDIACONO, M. DEL CHIARO

17.45 CERIMONIA DI APERTURA

18.00 Introduce C. BASSI

LETTURA SIC: Controllo di qualità in Chirurgia pancreatica - LIGUORI

18.30 Introduce I. VANTINI

LETTURA : Pancreatite cronica autoimmune: stato dell'arte - L. FRULLONI

Venerdi 14 ottobre

8.30 COMUNICAZIONI ORALI

Moderatori: E. GAIA – A. ZERBI

8.30 New WHO classification for pancreatic endocrine tumors. A better model ? Ricci C, Monari F, Buscemi S, D'Ambra M, Campana D, Tomassetti P, Taffurelli G, Santini D, Casadei R, Minni F

8.40 Microvascular Density (MVD) in Pancreatic Neuroendocrine Tumors (PNET): Correlation with MDCT Post-Contrastographic Pattern and the Neoplasms Nature. Funel N, Pontillo B , Cappelli C, Pollina LE, Boggi U, Perrone V, Bartolozzi C, Mosca F, Campani D.

8.50 Pattern and Clinical Predictors of Lymph Node Involvement in Neuroendocrine Neoplasms of the Pancreas. Partelli S, Cherif R, Boninsegna L, Gaujoux S, Crippa S, Couvelard A, Scarpa A, Sauvanet A, Ruzsniwski P, Pederzoli P and Falconi M

9.00 Meta-analysis of the placebo rate of abdominal pain remission in clinical trials of chronic pancreatitis. Capurso G, Cocomello L, Benedetto U, Cammà C and Delle Fave G

9.10 Clinical, morphological and functional aspects of patients suffering from pancreatitis associated with mutations of CFTR and SPINK1 genes. De Marchi G, Frulloni L, Amodio A, Katsotourchi AM, Viaro T, Niensted R, Tumelero T, Gabbrielli A, Benini L and Vantini I

9.20 Minor papilla sphincterotomy is an effective therapy in recurrent pancreatitis due to Santorinicele: experience of a single centre. Garribba A, Bernardoni L, Rostello A, Manfredi R, Frulloni L, Benini L, Vantini I, Gabbrielli A

9.30 Introduce M. FALCONI

New attempts for Atlanta Classification - C. DERVENIS

10.30 COMUNICAZIONI ORALI

Moderatori: A. SCARPA – PL. DI SEBASTIANO

10.30 PTEN loss is a marker of poor prognosis in, surgically resected, chemotherapy treated pancreatic ductal adenocarcinoma. Reni M, Balzano G, Cereda S, Belli C, Magliacane G, Cangini MG, Doglioni C.

10.40 Significant Association Between DNA Repair Polymorphisms and Survival in Pancreatic Cancer Patients Treated with Gemcitabine/ Platinum Combination Chemotherapy. Giovannetti E, Reni M, Pacetti P, Mambrini A, Vasile E, Lucchesi M, Ghidini M, Funel N, Avan A, Cereda S, Cantore M, Peters GJ

10.50 Electroporation of Pancreatic Adenocarcinoma Cell Lines Enhances The Anti-tumor Effect of Bleomycin and Cisplatin. Prejanò S, Corbo V, Battista M, Cadossi R, Bassi C, Scarpa A

11.00 The heterotrimeric G15 protein may support sustained PKD1 activation. Zanini S, Giovinazzo F, Sinnott-Smith J, Rozengurt E, Bassi C and Innamorati G

11.10 Hyperglycemia-Induced S100A8 and S100A9 Target Akt and NF-κB Signalling in Pancreatic Cancer Cells. Moz S, Zambon C-F, Bozzato D, Padoan A, Fogar P, Sperti C, Greco E¹, Fadi E, Navaglia F, Pelloso M, Rossi E, Pasquali C, Plebani M, Basso D

11.20 Molecular characterization of primary pancreatic adenocarcinoma cell cultures. Cangini MG, Pecciarini L, Talarico A, Magliacane G, Grassini G, Dal Cin E, Santambrogio G, Doglioni C

11.00 COFFEE BREAK

11.30 SIMPOSIO: Tumore del pancreas ed immunità

Moderatori: A. SCARPA- L. PIEMONTI

- **Evasione immune dalla ricerca di base alla applicazione clinica - V. BRONTE**
- **Ruolo della infiammazione di tipo 2 nel carcinoma del pancreas – L. DAL MONTE**
- **Nuovi approcci immunoterapici nel tumore del pancreas - F. NOVELLI**
- **Infiammazione indotta dall'oncogene KRas nel carcinoma pancreatico - P. ALLAVENA**

13.00 PRANZO & POSTER ROUND – G. BUTTURINI, R. PEZZILLI

14.30 COMUNICAZIONI ORALI

Moderatori: R. GIRELLI -U. BOGGI

14.30 Cefazolin is inappropriate as antibiotic prophylaxis in pancreatic surgery. Gavazzi F, Fiore B, Ridolfi C, Morelli P, Zerbi A, Montorsi M

14.40 Pancreatectomy plus resection of peripancreatic arteries: a single Institution experience
Del Chiaro M, Costa F, De Lio N, Signori S, D' Isidoro C, Mosca F, Boggi U.

14.50 A prognostic score to predict major complications after pancreaticoduodenectomy.
Capretti G, Pecorelli N, Balzano G, Ariotti R. and Braga M.

15.00 Long term study of residual pancreatic function after pancreogastric or pancreojejunal pylorus preserving pancreaticoduodenectomy. Benini L, Bassi C, Magro A, Agugiaro F, Butturini G, Campagnola P, Rostello A, Massella A, Moser L, Gabbrielli A, Panzeri F, Salvia R², Falconi M, Manfredi R, Pozzi Mucelli R, Frulloni L, Pederzoli P, Vantini I.

15.10 Laparoscopic Robot-Assisted Pancreas Transplantation. Boggi U, Vistoli F, Signori S, Croce C, Amorese G, Consani G, Guarracino F, D'Imporzano S, De Lio N, Belluomini MA, Caniglia F, Marchetti P, Mosca F.

15.20 Post-operative analgesia after pancreatic surgery: safety and efficacy of continuous wound infusion of ropivacaine. Ridolfi C, Gavazzi F, Fiore B, Leone N, Spoto M, Zerbi A, Montorsi M.

15.30 SIMPOSIO ENDOSCOPIA

Moderatori: A. MUTIGNANI, L. BENINI, A. ANDRIULLI

- **Ittero e chirurgia: Stenting si o no?** - A. COSTAMAGNA
- **Pancreopatie idiopatiche e sfinterotomia** – A. GABBRIELLI
- **Proposta studio AISP su “Drenaggio biliare preoperatorio nei pazienti itterici candidati a DCP”** – A. MARIANI

16.45 COFFEE BREAK

17.00 COMUNICAZIONI ORALI

Moderatori: PG. RABITTI - A. AURIEMMA

5.00 148 consecutive patients with LAPC treated with RFA: results on long term follow up.

Frigerio I, Regi P, Giardino A, Girelli R, Salvia R, Fontana M and Bassi C.

5.10 Does Preoperative Chemotherapy Affect Short-Term Outcome after Pancreatic Resection?

A case-match analysis. Pecorelli N, Capretti G, Reni M, Cereda S, Balzano G, Castoldi R, Doglioni C, Ariotti R, Braga M.

5.20 A 13-year single institution experience with 4-drug regimens in patients with advanced pancreatic adenocarcinoma.

Belli C, Balzano G, Cereda S, Passoni P, Ghidini M, Rognone A, Cappio S, Nicoletti R, Arcidiacono PG, Villa E, Di Carlo V, Reni M

5.30 Hypofractionated stereotactic body radiotherapy for nonmetastatic locally advanced unresectable pancreatic cancer: preliminary results.

Castiglioni S, Zerbi A, Arcangeli S, Bignardi M, Mancosu P, Tozzi A, Navarra P, Montorsi M, Scorsetti M

5.40 Pancreatic tumors in childhood and adolescence: uncommon neoplasms with favourable outcome.

Marchegiani G, Crippa S, Malleo G, Partelli S, Capelli P, Pederzoli P, and Falconi M.

5.50 Comparing RECIST and Choi’s criteria after neoadjuvant chemoradiotherapy in patients with resectable pancreatic cancer.

Monari F, D’Ambra M, Ricci C, Buscemi S, Calculli L, Pezzilli R, Santini D, Di Marco MC, Macchini M, Casadei R, Minni F.

18.00 ASSEMBLEA & CENA SOCIALE

Sabato 15 ottobre

09.00 “AISP INTERNATIONAL-1”: ORAL PRESENTATIONS by FOREIGN GUESTS

Moderatori: G. BUTTURINI, A. ANDRIULLI

9.00 Pancreas-Preserving Duodenectomy is a Safe Alternative to High-Risk Pancreaticoduodenectomy for Premalignant Duodenal Lesions. Rangelova EB, Del Chiaro M, Lundell L, Segersvärd R

9.10 Markers of tissue hypoperfusion and short-term outcomes after major pancreatic surgery. Chandrabalan VV, Madurska M, McKay CJ, Carter CR, Dickson EJ

9.20 The Effect of Prophylactic Transpapillary Pancreatic Stent Insertion on Leakage Rate after Distal Pancreatectomy: Results of a Randomized, Clinical Trial. Frozanpor F, Lundell L, Segersvärd R, Arnelo U

9.30 SIMPOSIO: Approccio invasivo alla pancreatite acuta

Moderatori: G. UOMO, P. COSTA, C. BASSI

The U.K pioneers (R. Carter - Glasgow)

The Panter trial (J. Gooszen-Utrecht)

Pseudocyst and fluid collections (M. Mutignani – Roma)

11.00 “AISP INTERNATIONAL-2”: ORAL PRESENTATIONS by ITALIAN PANCREATOLOGISTS ABROAD

Moderatori: R. CASADEI – L. FRULLONI

11.00 Synergistic Interaction of Novel Lactate Dehydrogenase Inhibitors with Gemcitabine in Hypoxic Models of Pancreatic Cancer Giovannetti E, Sciarrillo R, Granchi C, Leon LG, Funel N, Macchia M, Avan A, Minutolo F, Peters GJ

11.10 Functional Characterization Of Genetic Susceptibility To Pancreatic Cancer. Campa D, Rizzato C, Hoheisel J, Giese N, Werner J, Lorenzo-Bermejo J, William Greenhalf, Eithne Costello, Neoptolemos JP, Büchler M, Bauer A. Canzian F

11.20 Advanced age should not exclude patients from pancreaticoduodenectomy. M. Del Chiaro, E. Rangelova, C Ansorge, J Blomberg, Å Andrén-Sandberg, R Segersvärd

11.30 Prospettive Future in Chirurgia Pancreatica:

Introduce C. Bassi

ENHANCED RECOVERY AFTER SURGERY (ERAS): dai principi generali alla applicabilità in chirurgia pancreatica - M. BRAGA

12.00 COMUNICAZIONI ORALI

Moderatori: R. SALVIA, M. DEL CHIARO

12.00 Growth pattern of serous cystic neoplasms of the pancreas: observational study with long-term magnetic resonance surveillance and recommendations for treatment.

Malleo G; Bassi C, Rossini R; Manfredi R, Butturini G, Massignani M; Painsi M; Pederzoli P; Salvia R

12.10 Single step EUS-guided transmural drainage of pancreatic pseudocysts: analysis of technical feasibility, efficacy, and safety in a single center. Petrone MC, Di Leo M, Carrara S,

Boemo C, Arcidiacono PG

12.20 Branch Duct Intraductal Papillary-Mucinous Neoplasia: thin red line walking between Surgery and Surveillance. M Painsi, G Zamboni, G Malleo, G Marchegiani, A Pea, G Mascetta, S Pennacchio, C Bassi and R Salvia

12.30 Positron Emission Tomography vs International Consensus Guidelines in detecting malignancy of Intraductal Papillary Mucinous Neoplasms of the Pancreas. Sperti C, Beltrame V, Tona F, Bissoli S, Chierichetti F, Pedrazzoli S, Pasquali C.

12.40 A twist in the tale after pancreatic resection for cystic neoplasms: when histological examination reveals a “Whipple for nothing”. Salvia R, Paiella S, Pennacchio S, Marchegiani G, Malleo G, Pea A, Painsi M, Falconi M, Bassi C and Pederzoli P.

12.50 A real-world analysis of the outcome of patients with IPMN and indication for surgery according to IAP criteria in whom surgery is not performed due to advanced age or comorbidities. Capurso G, Del Chiaro M, Antonelli M, Piciucchi M, Leonardi G, Iannicelli E, Cavallini M, Ziparo V, Boggi U, Delle Fave G.

13.00 PREMIAZIONI E SALUTI FINALI
